

### CONSTRUCTION

1. The Boardform Series Planters offer an optional cantilevered bench option in standard sizes noted.
2. Planters are 3" thick and have a medium joint.
3. Planters are lightly sealed inside/outside to enhance color and protect surfaces from moisture, dirt, and stains.
4. Form and Fiber's boardform planters are cast using a standard gray cement base, with no integral pigment.
5. Planters come with steel loops cast within inside of planter for lifting/locating the unit.

### CANTILEVERED BENCH OPTION

1. The cantilevered bench has been engineered and load rated up to 100 lbs. load per square foot.
2. Wood seat options include:
  - Ipe
  - Thermory Thermally Modified Ash
  - Kebony Thermally Modified Pine
  - Americana Thermally Modified Oak
3. Seats can be inset from edge of planter (as shown above) for individual units or extended to edge of planters for a continuous installment with multiple units.
4. Support gussets available in FF Standard Powder Coat Colors.
